** improved pit considered equal to traditional latrines

Census		
CENSUS	1997	
INSUFFICIENT INFORMATION		
SANITATION	Urban	Rural
Total Population		
ADEQUATE SANITATION		

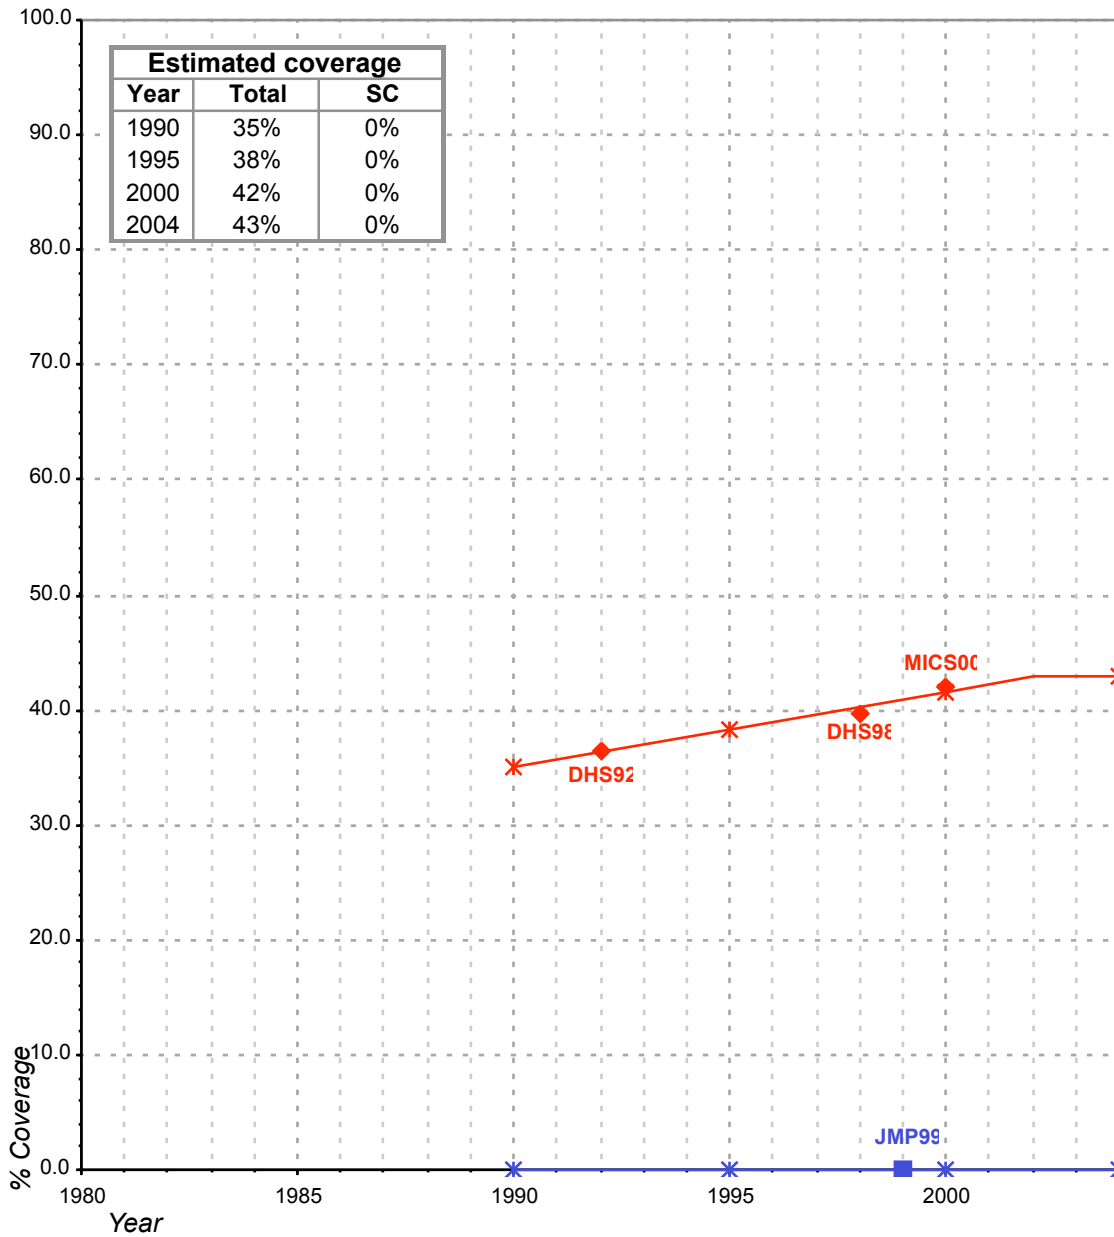

Source: 1997 National Census data as recorded in the Water Supply and Sanitation Assessment 2000. and Sanitation Sector Questionnaire - 1999.

Estimate		
FORM6/WHO	1999	
(Population in thousands)		
SANITATION	Urban	Rural
Population served with household connections to conventional sewers	0,000	0,000
Population without household connections but served with adequate, private on-site system	6 642,798	81,896
Total population served	6 642,798	81,896
Total population unserved	1 748,628	1 434,698
Total population	8 391,426	1 516,594
Population with adequate sanitation	79%	5%
% House connections	0%	0%
